Experience

Student Counselor Oct 2021 - present
The UEHS Warsaw, Poland

As a part of the Student Council, my responsibilities are:

- Building a team working environment, managing and distributing tasks inside the team.
- Managing and organizing events for the community of international students at UEHS.
- Closely working with country representatives and other international students in order to achieve the best results in serving the community.

Education Mentor July 2021 - Oct 2021
Makers Coding Bootcamp Bishkek, Kyrgyzstan

The job consisted of teaching students and colleagues data structures and algorithms. As the first mentor of algorithms and data structures my duties were:

- Made presentations about Data Structures and their efficiencies.
- Showed real examples by solving a few problems from LeetCode and HackerRank.
- Looked for the well - related problems with provided topics.
- Showed different approaches using popular algorithms in order to show time and space consumptions.
- And of course self-improvement.

Administration Assistant Nov 2019 - Feb 2020
The UEHS Warsaw, Poland

Working as an Assistant in Student Affairs Office:

- Helped newcomers adapt to Poland.
- Learned how to work with documents properly.
- Developed and fostered positive relationships with University members.

Education

The University of Economics and Human Sciences in Warsaw (UEHS) 2019 - 2023

Bachelors in Computer Science - BCS

Awards & Achievements

The President of the School

I was elected as President of my school. Mainly was working with students to resolve problems and informing the school council of ideas emanating from the classes. My responsibilities also include organizing, leading, and distributing tasks for school councilors for upcoming events.

Olympiads in Mathematics and Programming

in my school days, I used to participate in Olympiads in math and in programming. I am honored to announce that I have got 2 place in the republican Olympiad in math.

Problem-Solving

I have successfully cleared the Python part and now I am one of the top rankers (Global Rank 1) in HackerRank. I have received Gold Badges in Python, Problem - Solving, and SQL. Additionally, I have solved 250+ problems in Leetcode. "
